FOAMEZE C-100

Chlorinated Foaming Alkaline Cleaner

FEATURES/BENEFITS

- Contains chlorine as sodium hypochlorite
- Moderate caustic alkalinity
- High foaming
- Low viscosity
- Solvent free
- High performance
- May be used in compressed air or manual foaming systems
- Foam clings strongly to surfaces over a long period of time
- Cost efficient

Foameze C-100 Plus is available in 55 gallon drums and 5 gallon pails. Inquire about availability in other packages.

1896.bulus-ag.wpd (May07)

Description

Foameze C-100 is a chlorinated alkaline product designed for foam cleaning of surfaces in the food industry. It is a high performance product intended to remove protein deposits which cling to surfaces even when previously cleaned with an alkaline or enzymatic product. This is common in the poultry industry where yellow deposits can rapidly form and be difficult to remove.

Typical Use Directions (also see product label)

Equipment to be treated	All food processing equipment with exterior cleaning (COP) such as the meat industry
Soils to be removed	Protein deposits which remain on surfaces and that are difficult to clean with alkaline or enzymatic products
Use procedure	Rinse surfaces with high-pressure hot water then apply a foam solution of <i>Foameze C-100</i> . Allow to dwell then rinse using high pressure
Concentration	Between 1% and 10% (1-12 oz/gal)
Use Temperature	Solution's temperature may vary between 50 and 160°F when applied as foam. However, avoid preparing solutions too far in advance, especially when hot since the chlorine found in the solution will evaporate
Dwell time / Operation time	2 to 5 minutes
Mechanical action	Scrubbing or brushing recommended
Rinsing	Rinse surfaces thoroughly to remove all traces of product.
Reuse / Recycling	Not possible

FOAMEZE C-100

Chlorinated Foaming Alkaline Cleaner

PHYSICAL PROPERTIES, typical

Appearance: Clear light green liquid

Odor: Chlorine

Specific Gravity @ 20°C: 1.18

pH at 1%: 12.5

Boiling Point, °F: Approx. 212

Freezing Point, °F: 25

Contains: Hypochlorite

Flash Point, TCC, °F: None

Viscosity: Thin

Foaming: High

Concentration Monitoring Technique: Titration,
conductivity

Rinsability: Excellent

INCOMPATIBILITY

Acids. aluminum and other soft metals, galvanized steel

WAREHOUSING PRECAUTIONS

Keep from freezing. Store in a cool dry area, away from acids.

IMPORTANT: Before using FOAMEZE C-100, always be sure to read and follow warnings and directions for use appearing on the product container label and MSDS.
