

# CITRIKLEEN<sup>®</sup> RTU

## A “Ready-to-Use” Biodegradable Degreaser

### FEATURES/BENEFITS

#### Features

- Biodegradable
- Ready to use
- Versatile cleaner
- Pleasant odor
- Excellent degreaser

#### Benefits

- Economical
- No mixing needed
- Saves time and money
- Easy to use
- Separates soils after cleaning

*Citrikleen RTU* is available in 6 gallon pails, 55 gallon drums, totes and bulk deliveries

### Description

*Citrikleen RTU* is a biodegradable, moderate duty cleaner/degreaser formulated with an organic nonpetroleum hydrocarbon solvent and multi-component surfactant-emulsifier system.

*Citrikleen RTU* penetrates on contact, softening and lifting a wide range of petroleum, animal and vegetable based oils, fats and greases, making them easily removed by rinsing with water.

*Citrikleen RTU* splits the grease and oily contaminants from the surface being cleaned so they rise to the top and are easily separated. The grease and oil can then be removed by skimming off the top leaving the bottom layer clean and soil-free for reuse.

*Citrikleen RTU* has a natural, pleasant odor.

### Typical Use Directions

*Citrikleen RTU* can be used directly from its container for most clean-up problems:

#### Parts washing with *Citrikleen RTU*:

Cold tank cleaning; soak parts 10 minutes, brush if needed, rinse or wipe dry.

#### Oily, greasy surfaces:

Cold or warm (120°F. 49°C. maximum); flood area with *Citrikleen RTU*, agitate and rinse.

#### Soiled painted surfaces:

Spray with a pressure sprayer undiluted and rinse with clear water or wipe off.

#### Walking surfaces:

Pressure washer undiluted (not steam) with *Citrikleen RTU* and rinse with cold water.

*Citrikleen RTU* in its convenient prediluted form can be used wherever the water supply must be conserved. No proportioning or premixing is needed.

**IMPORTANT:** Before using CITRIKLEEN RTU, always be sure to read and follow precautions and directions for use appearing on the product container label and MSDS. (Mar04)
