Description

Penblitz 208L is a mild alkaline cleaner specially designed to clean condensers and evaporator coils without harming them. It has been tested and listed under NYCTA Commodity Code 70-17-1483/97.

Directions for Use

Condenser Cleaning: Use a coarse, nonatomizing spray to apply *Penblitz 208L* to condenser surfaces, first from the rear of the condenser and then from the front. Allow a dwell time of 5 to 20 minutes. Pressure rinse with water, doing the rear section first and then the front area. Rinse until the water runs clear and free of soils.

Evaporator Cleaning: After opening the access door, apply *Penblitz 208L* by a coarse, nonatomizing spray onto the evaporator using a long wand. Allow to dwell for at least 5 minutes, followed by a pressure water rinse.

Important: Be sure condensate lines are running free and clear.

IMPORTANT: Before using *Penblitz 208L*, always be sure to read and follow warnings and directions for use appearing on the product container label and MSDS.
